

Globalstar SAT-550 Handheld Satellite Phone

No matter where you are, Globalstar lets you go further and do more. The Globalstar SAT-550 delivers clear digital voice communications virtually anywhere, in an affordable and rugged package. If you need access to reliable voice communications where and when traditional cellular and landline networks are unavailable, the handheld SAT-550 is an ideal solution.

The Globalstar SAT-550 is compact for easy portability and ergonomically designed for ease of use. Plus it's reliable, ensuring excellent voice quality and communications availability when you need them most. The SAT-550 takes advantage of the Globalstar Network, a constellation of multiple Low-Earth Orbit (LEO) satellites to practically eliminate voice delay and deliver crisp communications.

The Globalstar SAT-550 Handheld Phone delivers communications far beyond existing wireless communications boundaries into areas not served by cellular or landline range. Well suited for businesses and individuals who already depend on wireless communications, but find themselves in areas or situations where consistent coverage is either unavailable or unreliable.
