- Configure your Voicemail by selecting 'Call Voicemail' and following these steps when prompted: enter your Iridium phone number followed by the star (*) key. When prompted, enter your password (default password is the last seven digits of your phone number).
- Follow the audio prompts to set your new password, record your greeting and configure your account settings.

4. Program Messaging Services

- You can send and receive text messages and short emails using your Iridium 9555 phone. By programming your Messaging 'Service Center' you ensure that your phone is able to send and receive these messages.
- From the main menu, select 'Messages', 'Settings', and finally 'Service Center'.
- Enter +881662900005 then select 'OK' by pressing the left soft key.

5. Make a Call

- The phone must be used outside, away from trees and tall buildings
- Extend the antenna completely and rotate so that it points directly upwards

- Power-on by pressing black button on the top of the phone
- Phone will display 'searching for network' and then 'Registered'
- Dialing sequence: 00 + Country Code + Telephone Number
- Enter phone number then press the green key to initiate the call
- Press the red key to end the call

6. Troubleshooting and Helpful Hints

- Keeping the phone's battery charged ensures that the phone is ready for use when needed. For maximum battery performance, try to allow the phone's battery to discharge completely before fully recharging.
- Protect the antenna by stowing it in the down position when not in use.
- Your phone can be programmed to automatically add the international access code (00 or +) to each number you dial. From the main menu, select 'Setup' and then 'Number Entry'.
